

Vaccine Requirements for Behaviour Classes

January 2022

Puppies (Dogs <20 weeks):

- Required to have at least their second dose of initial core vaccine series
- Rabies vaccine history required
- Kennel cough protection required

Adult Dogs (Dogs >20 weeks):

- Required to be up to date with core vaccines
- Rabies vaccine history required
- Kennel cough protection required

*Dogs receive their core vaccinations as a single vaccine denoted DA2PP/DHPP. This vaccine provides vaccination against: **Distemper**, a gastrointestinal, respiratory and neurologic disease; **Adenovirus**, a respiratory virus also providing immunity against a related virus causing infectious hepatitis; **Parvovirus**, a potentially fatal gastrointestinal disease; and **Parainfluenza**, a respiratory virus. Booster vaccination requirements need to be discussed with the regular veterinarian.*

If you can not meet our vaccine requirements please call us at 409-723-6019 to discuss potential accommodation.
